

Sample Dataset Documentation

Reference Guidelines for Included Test Data Files

1. Overview of SAMPLE_DATA.csv

This test file is located in the 'sample-test-data/' directory. It contains 31 transaction rows representing sales for January 2024.

Metrics Overview:

- * Total rows: 31
- * Target Year/Month: January, 2024
- * Total Revenue represented: ~1,798,000 INR
- * Categories included: Electronics, Furniture, Others
- * Regions represented: Maharashtra, Karnataka, Tamil Nadu, Uttar Pradesh, West Bengal, Telangana, Gujarat, Delhi, Kerala, Punjab, Haryana

2. Overview of HEATMAP_TEST_DATA.csv

A smaller dataset designed for testing map coordinates and product-level drilldowns. It includes columns for specific product names (e.g. 'Alpha Phone', 'Beta Desk', 'Gamma Chair').

- * Regions: Tamilnadu (mapped to Tamil Nadu), Kerala, Delhi, Orissa, Karnataka.
- * Value Range: Revenue spans from 50,000 to 120,000 INR.

Use this file to test custom column mappings.

3. Verification Steps

To test the system:

1. Select Month = January, Year = 2024.
2. Import 'SAMPLE_DATA.csv'.
3. Confirm that the dashboard updates with 11 active regional hubs, ~1.79M in total revenue, and correct category splits.
