

CIVORA Terms of Service

Standard Usage Agreement and Licensing Rules

1. Licensing and Scope of Use

CIVORA is provided as enterprise software for internal business operations. You may run instances in local environments or private clouds.

2. Data Responsibility

You are responsible for the accuracy of imported datasets and the security of user accounts.

3. AI Integrations Disclaimer

AI-generated summaries and forecasts are indicators, not guaranteed metrics. Perform independent reviews before making financial or inventory decisions.

4. Limitation of Liability

CIVORA is provided 'as is'. The developers are not liable for business interruptions, data inaccuracies, or server downtime.
